➤ The Festival

The International Choir Festival in Provence takes place every year in July in South-East of France (Provence). The Festival aims at being a meeting between international foreign choirs and the French audience and other French choirs.

The choirs perform one concert every evening in different towns and villages of our area. The venues may be church, concert hall or outside. The choirs may change its program according to the venue. The duration of the program is about 80 minutes. This program must be composed of sacred, classical and popular works. The Festival's goal is to make the audience discover repertoires and chorale richness (adaptation of popular songs, contemporary works, etc.). Some concerts will be performed with another French or foreign choir. So, the duration of the program is shared.
